PEG/ADM-137/70
24 April 1970

MEMORANDUM FOR: Director, APIC

THROUGH: Chief, Production Services Group, APIC

25X1 SUBJECT: [REDACTED] Proposal to Furnish Technical
(Systems/Programming) Support Services

25X1 REFERENCE: [REDACTED] Letter, dated 21 April 1970,
[REDACTED] Proposal Number 2379

25X1 1. This memorandum contains a request for additional funds of
[REDACTED] Such recommendation is stated in Paragraph 7.

25X1 2. [REDACTED] found it impossible to complete the development
25X1 of required programs under funding levels established in December
1969 for contract [REDACTED]. Their appraisal of the work
remaining in this cost plus fixed fee contract reflected an additional
funding requirement of approximately [REDACTED] 25X1

25X1 3. We elected to realign our software development priorities,
reallocate our in-house resources from less critical tasks, and accept
responsibility for completing the remaining [REDACTED] programs. This approach 25X1
however, could not be effectively accomplished without some augmentation
by the [REDACTED] programming team most familiar with the work remaining. The
attached contract provides this augmentation and in our judgement at
considerably less expense.

4. The funds in the estimated amount of [REDACTED] are available. 25X1
They will be charged to [REDACTED] 25X1

5. There should be no follow on action resulting from the conduct
of this work.

25X1 25X1 6. [REDACTED] will be Project Officer
for this contract. [REDACTED] is appropriate for this work.
The Project Officer will assign security classifications to the reports.
The contractor will provide Monthly Progress Letters per Specification
Number DD-1001, dated 31 August 1968.

WORK STATEMENT

During the period of this contract, [REDACTED] will provide technical services in support of the Integrated Information System (IIS). These services will be provided by [REDACTED] and will include but not be limited to:

- A. 1. Completion of testing of the RPG Subsystem.
- 2. Furnishing assistance in the completion of BQL Testing.
- 3. Providing assistance in the design and implementation of the On-Line Update (OUD) Subsystem.
- 4. Analysis and correction of subsystem malfunctions.
- 5. Furnishing on the job assistance to the IIS maintenance team in learning and maintaining the IIS Subsystems.
- 6. Installation of the RPG Subsystem into the PIRL Subsystem and performing the testing thereof.
- 7. Generation and/or updating documentation for the IIS Subsystems.
- 8. Analysis and evaluation of the impact of proposed changes.
- 9. Furnishing assistance in implementing approved changes.
- 10. Provide technical assistance in the training of user personnel.

B. All work will be performed at the customer's site.

* Or personnel possessing comparable skills and background and otherwise acceptable to the customer.
